

MBE 90-day Plan

Every Student; A Success Story

VISION

(INTERVENTION PLAN)

TEACHING &
LEARNING

4. Implementation & Monitoring:

- ❑ Start intervention programs with targeted students
- ❑ Ensure clear communication with parents
- ❑ Monitor initial program feedback and make necessary adjustments
- ❑ Evaluate progress based on pre/post assessments
- ❑ Collect feedback from teachers and intervention staff on student progress and engagement
- ❑ Continue collecting data and refining intervention strategies and timelines based on student progress

90
Days

3. Design Intervention Sessions:

- ❑ Review and select research-based intervention programs
- ❑ Select differentiated materials based on student-specific needs
- ❑ Ensure alignment with program of studies
- ❑ Develop detailed plans & materials for intervention program
- ❑ Provide training sessions for intervention staff on best practices in delivering effective interventions
- ❑ Finalize intervention schedules, providing for class timetables and ensuring a balance between intervention & regular class instruction
- ❑ Involve Numeracy Consultant in all the above steps

30
Days

1. Assess Current Needs and Resources:

- ❑ Gather data on numeracy & literacy levels
- ❑ Identify key areas of struggles
- ❑ Review existing programs and supports

2. Defining Program Goals and Structure:

- ❑ Set clear, measurable goals for intervention program
- ❑ Identify and allocate necessary staff
- ❑ Develop a structure for the program:
 - Target Population? Intervention Frequency?
 - Duration of Sessions? Grouping Strategies?
